

## CARA MENGGUNAKAN PROGRAM

1. Buka di localhost dengan alamat :  
<http://localhost/rumahwebtes/index.php/home/login>
2. Program akan mengarahkan kepada halaman LOGIN

The screenshot shows a web form titled "Halaman Login". It contains two input fields: "Email address" and "Password". Below the "Password" field is a "Sign in" button.

3. Login menggunakan  
`"email": "eve.holt@reqres.in",`  
`"password": "cityslicka"`

The screenshot shows a REST client interface. The "Request" tab is selected, displaying the endpoint `/api/login`. The request body is a JSON object: `"email": "eve.holt@reqres.in",` and `"password": "cityslicka"`.

4. Setelah berhasil login, maka akan diarahkan ke halaman List All User, disana terdapat semua identitas user yang sudah terdaftar
